Vol.7 table of contents (2014)

Vol.7 No.1

Research papers

Open foundry to spur open-innovation
—Establishment of a foundry to realize an innovative cooperation platform and development of its sustainable management strategy—
- - - H. AKINAGA 1-11

Development of an advanced sewage sludge incinerator, “turbocharged fluidized bed incinerator”
—The role of AIST in the development of a new system—
- - - Y. SUZUKI, T. MURAKAMI and A. KITAJIMA 12-21

A novel material design system method for on-demand material development
—A method born from a development field—
- - - T. INADA and T. MATSUO 22-29

Towards large-capacity, energy-efficient, and sustainable communication networks
—Network topology research for dynamic optical paths—
- - - K. ISHII, J. KURUMIDA and S. NAMIKI 30-43

Vol.7 No.2

Research papers

A social system for production and utilization of thermophysical quantity data
—Measurement technology, metrological standard, standardization of measurement method, and database for thermal diffusivity by laser flash method—
- - - T. BABA and M. AKOSHIMA 49-64

National standards of length for high-capacity optical fiber communication systems
—Development of fiber-based optical frequency combs—
- - - H. INABA, A. ONAE and FL. HONG 65-78

Research and development of solar hydrogen production
—Toward the realization of ingenious photocatalysis-electrolysis hybrid system—
- - - K. SAYAMA and Y. MISEKI 79-91

Methodology for designing cryptographic systems with advanced functionality based on a modular approach
—Towards reducing the barrier to introducing newly-designed cryptographic schemes into real-world systems—
- - - G. HANAOKA, S. OHATA, T. MATSUDA, K. NUIDA and N. ATTRAPADUNG 92-104

Development of lectin microarray, an advanced system for glycan profiling
—From frontal affinity chromatography to evanescent wave excitation fluorescence detection method—
- - - J. HIRABAYASHI 105-117

Development of a household high-definition video transmission system based on ballpoint-pen technology
—A low cost, easily deployed optical connection using a ballpoint-pen type interconnect—
- - - T. TOMA, H. TAKIZUKA, T. TORIKAI, H. SUZUKI, T. OGI and Y. KOIKE 118-128
Research papers

Development of a stable growth factor suitable for radioprotection
— Drug development-aimed R&D at a basic research institute —
- - - T. IMAMURA 134 - 148

Development of a protein array for autoantibody profiling of blood
— Comprehensive disease diagnosis using the body’s defense system —
- - - Y. KAWAKAMI and N. GOSHIMA 149 - 157

Technological development of internal heat-integrated distillation column (HIDiC)
— Substantive research of application to a bench plant of bioethanol distillation —
- - - K. KATAOKA and H. NODA 158 - 173

Secure password authentication schemes and their applications
— How to achieve security with short passwords —
- - - K. KOBARA and S.H. SHIN 174 - 184

Development of environmentally-friendly surface modification technology
— Practical realization of novel oleophobic coatings without relying on perfluorinated compounds and surface texturing —
- - - A. HOZUMI and C. URATA 185 - 193

Research papers

New research trends in artifactology
— Modeling of individuals and socialization technology —
- - - J. OTA, N. NISHINO, T. HARA and T. FUJITA 200 - 209

Mental fatigue measurement as application software on consumer devices
— Introducing reliable fatigue index to daily life —
- - - S. IWAKI and N. HARADA 210 - 217

Development of evaluation technologies for sedimentary characteristics
— Applicability of the technologies to the assessment of methane hydrate sediments —
- - - N. TENMA 218 - 228

International standardization of four dimensional radiotherapy system
— Enhancement of effects of irradiation and assurance of safety —
- - - Y. HIRATA, N. MIYAMOTO, M. SHIMIZU, M. YOSHIDA, K. HIRAMOTO,
Y. ICHIKAWA, S. KANEKO, T. SASAGAWA, M. HIRAOKA and H. SHIRATO 229 - 238

Preparation of superconducting films by metal organic deposition
— Research and development towards a fault current limiter and other electric devices —
- - - T. MANABE, M. SOHMA, I. YAMAGUCHI, H. MATSUI, T. TSUCHIYA and T. KUMAGAI 239 - 250
